

**2022-23 Orange County Section Election  
Candidate Statement**

**President Elect:            ANASTASIA KING**

With so many of our talented and experienced colleagues retiring, it has never been more important to ensure that the voices of the next generation of engineers are heard in PEEG. It has been a privilege to serve as your section Vice President Rank and File for the last year and before a delegate for three years, and I would be honored to represent you again in this coming year.

Working for Caltrans in Design Branch A, as well as previous experience working in the private sector, has helped me to understand the perspectives of my colleagues. As your Vice-President (rank and file), I pledge to continue my support for legislation and policies which protect our members. I will continue to work alongside PEEG leadership in supporting transportation funding, reducing job outsourcing, supporting geographical pay, and protecting our pensions. I will also use the experience gained during the last year, serving as your recruitment committee chair, to increase membership and ensure that our voice is present at the bargaining table.

Together, we can build on the success which PEEG and our members have forged.
