

**2023-24 Orange County Section Election
Candidate Statement**

Delegate: JARELLY LEANDRO

My name is Jarely Leandro. I am pleased to run for the Delegate position in the Orange County Section of PEGG. I joined Caltrans in 2019 and became a member of PEGG shortly after. My education includes degrees in B.S. and M.S. in Civil Engineering from California State University of Long Beach (CSULB). Prior to joining Caltrans, I worked in the private sector for one year.

Since June 2021, I have actively participated with other PEGG members in the STEM committee to encourage students to explore STEM related activities. Without the support of PEGG, we would not be able to reach out to different communities and encourage future generations to pursue STEM careers. I am excited to become more involved with PEGG as a Delegate within the Orange County Section. I look forward to learning more about the PEGG organizational structure and the current board members. If elected, I will work diligently to provide representation for all member's issues and concerns.
