

**2023-24 Orange County Section Election
Candidate Statement**

President Elect: TRAN DANG

My name is Tran Dang and it's time for election, so I need your support.

I am a Transportation Engineer who is currently working with NPDES/Storm Water Branch since 2000 and been involved with OC Section for the past 18 years through different positions: Delegate, Treasurer, Vice President Rank & File, President, and Director. Throughout the years, I've always proactively kept and served the members of Orange County Section for their best interest in all issues and concerns.

As a result, I had the honor to represent the members of Orange County Section to bring home the most distinguished trophy, Section of the Year (2020) Award. Throughout my term, we have established and formed multiple committees such as Outreach, Member Recruitments, Media & Newsletter, Member Supports, STEM/Science & Engineering Fair, etc. and we are together continued looking for many successful years to come.

I believe in the pay back principle. For the past 25 years being employed with the Department, I've received the great benefits that PECG and many Section volunteers and officers, before me, had accomplished to keep our employment from outsourcing, competitive pay & benefits, pension protection, and amazing health care. Hence, I am pleased and humbled and willing to continue carrying on such a legacy.

As President-Elect, I will continue to work hard to represent the members at the Section level and there is one thing I can assure you that I will not misrepresent my office or myself. Our members' needs and concerns will be elevated to the President and Director of our Section for addressing.

Again, thank you for your continuing support.

Please VOTE TRAN DANG for your President-Elect.
