

# PE ORANGE COUNTY SECTION

CG PROFESSIONAL ENGINEERS IN CALIFORNIA GOVERNMENT

## SECTION DELEGATE

### Ryan Lapham

Transportation Engineer, Range B  
Caltrans – District 12  
Years of State Service: 3 years

I currently don't have any experience with PEEG. However, I've been working for Caltrans for almost 3 years and have been working in the public sector for over 4.5 years. Prior to my experience with Caltrans, I worked for a local water agency. I'd like to use this application as an opportunity to gain experience with PEEG and become more involved with my coworkers and local office.

I'm excited about the chance to serve as a section delegate for PEEG, marking my first step in a journey I hope will lead to more prominent roles as I gain experience. With over three years as a transportation engineer and another 4.5 years in the public sector, my deep passion for our field is matched only by my commitment to our community. My aim is to inject more fun and camaraderie into our workplace through engaging activities that bring us closer, creating a family-like atmosphere. I'm also focused on recruiting new members to ensure our organization's growth and vitality. As I embark on this role, I am dedicated to continuously advocating for improvements that make our workplace better for everyone. I believe my background and enthusiasm uniquely position me to make a meaningful impact and foster a more enjoyable environment for all of us.
